No, no, no extra snacks or food; if kept in cabins, these will attract unwanted rodents and bugs. No radios or cassette players. No electric appliances.

All gear should be placed in a single (That means one!) duffel bag or plastic garbage bag labeled with the child's name. No child should bring more gear than he himself can carry in one load; make sure the load is well-packed so it won't fall apart on your child as he carries it to his tent or cabin. Be sure to label each item.

Thanks,

Pat Disharoon
